EDUCATION

BNM Institute of Technology

Bachelor of Engineering in Computer Science - CGPA: 8.95

Bengaluru, India

November 2022 – Present

Indian National PU College

Pre-university College - 85.5%

Bengaluru, India

August 2020 – May 2022

Delhi Public School Bengaluru South

Central Board of Secondary Education - 83.4%

Bengaluru, India

March 2014 – March 2020

EXPERIENCE/INTERNSHIP

DELTTECH

Full Stack Developer

Muscat, Oman

March 2026 – Present

- Architectural revamp of *oazri.com* to enhance platform scalability and user experience.
- Built a secure checkout system by integrating the *AmwalPay* payment gateway.
- Working on the Oazri B2B Business model for Government Offices and Educational Institutions.

Kazunov 1AI Private Limited

AI Engineer Intern

Bengaluru, India

June 2025 – February 2026

- Improved underwriting efficiency and data accuracy by building a real-time dashboard with integrated validation.
- Standardized risk evaluation by creating a rule engine to consistently compute proposer Finance Scores.
- Enhanced prediction accuracy by developing a health scoring system combining risk metrics and Tele-MERT sentiment analysis.

PROJECTS

Classical RAG for Semantic Search and Quantum Modules for Research Evaluation | *FastAPI, ReactJS* May 2025

- Built a RAG-based semantic search system that delivers structured, context-aware answers from documents.
- Uses MongoDB vector search and Neo4j Knowledge Graph with LLM-based entity extraction for enhanced retrieval.
- Includes a multi-LLM comparison dashboard with automated (BLEU, ROUGE-L) and human evaluation.

Beat Frame | *Python, Streamlit, Librosa, OpenAI Whisper, GPT-4o, Stable Diffusion, MoviePy* January 2025

- AI music-video generator that generates videos based on beat stamps.
- Uses OpenAI for descriptive prompts and Stable Diffusion for high quality image generation.
- Accurately generates high quality images resulting in quality content creation.

Meme Wizard | *Python, Flask, HTML, CSS, JavaScript, MongoDB, Gemini API, Imgflip API* November 2024

- AI meme generator that generates memes based on sentiment analysis.
- Uses Gemini and Imgflip APIs to generate both AI and existing sentiment-based memes.
- Accurately captures real conversations, enabling targeted marketing and content creation.

TECHNICAL SKILLS

Programming: Python, HTML/CSS, JavaScript, ReactJS, NodeJS, LaTeX

Databases: MySQL, PostgreSQL

Frameworks: NumPy, pandas, Matplotlib, FastAPI, Flask

Developer Tools: VS Code, Git, JetBrains Development Tools, SSH, Neovim

Operating Systems: Linux, Windows

CERTIFICATION AND ACCOMPLISHMENTS

Classical RAG for Semantic Search & Quantum Modules for Research Evaluation – *IEEE Conference* February 2026

Emotion-Driven Adaptive Meme Recommendation System – *CICN – NIT Goa* December 2025

Paper presentation on LLM Hallucinations for RAG and KG Enhancement – *CICN – NIT Goa* December 2025

Represented Kazunov1AI Private Limited – *Bangalore Tech Summit* November 2025

Data Analysis with Python – *IBM* January 2025

Data Visualization with Python – *IBM* January 2025

Enigma Redesigned – *Christ University – First Place* December 2024
